### About

I'm a self-taught designer currently based in Vilnius, Lithuania.

### Experience

2016 – Present

Monotwo  
Digital designer

Worked on a variety of digital projects, from landing pages to larger design systems for startups and e-commerce accounts.

Primary roles included building UX wireframes and then defining design direction — from initial concept stages to final execution & motion prototypes, followed by extensive collaboration with developers in the QA stage.

Notable clients — BMW Motorrad, Finlandia Vodka, Telia, RE/MAX, Barbora (leading online food delivery service in the Baltics).

Mar – Sep 2016

Gaumina  
UI Designer

Designed for interactive campaigns, marketing websites, and various scope digital projects, including multiple e-commerce accounts.

Invaluable learning experience while getting to follow larger projects' workflows and closely collaborate with the UX & Development team.

2015 – 2016

Independent  
Digital designer

Freelancing focused on UI/UX projects, from landing pages to small e-commerce projects.

### Tools

Figma  
After Effects / Principle  
Photoshop  
Paper & pencil
